## AQUA SYSTEMS "S-\*/6HLC" LIQUID CHILLING D.X. EVAPORATORS FOR AIR CONDITIONING OR INDUSTRIAL LIQUID CHILLERS. FRESH – SALT WATER OR BRINE MODELS WITH CAPACITIES FROM 60 kW TO 123 kW.

## QUALITY ⇔ RELIABILITY ⇔ ECONOMICAL ⇔ QUICK DELIVERY

S-\*6HLC MODEL SHOWN WITH 2 REFRIG. CIRCUITS.

Note: Above model shown with insulated casing.

**Refrigerant connections:** Connection pipe sizes are for R22 chilled water applications. For other refrigerants the connection sizes will vary.

**Water connections:** Water connection sizes are nominal & will vary with a particular application.

## FEATURES.

**High Efficiency.** Copper or Cupro Nickel enhanced surface tubes with internal spiral fin along with the intermeshed co-axial tube geometry result in exceptionally high rate of heat transfer. Close approach temperatures increase system efficiency and reduce operating costs.

**No Oil Trapping.** Controlled refrigerant path ensures continuous oil return. On brine systems operating below -5°C evaporating temperatures the condensing unit should be fitted with a discharge gas oil separator.

**Convenient.** Supplied with selected liquid distributors to suit your application. Compact size will fit easily into small area.

**Robust Design.** Large bore (19mm) water tubes with even fluid distribution are low fouling. The continuous tube water circuits have no internal joints and ensure long term reliable operation.

**Insulation & Casing.** The Aqua Systems liquid chilling evaporators are supplied in a marine grade aluminium casing with polyurethane foam poured in situ. This reduces on site installation & cost.

**Compliance.** Constructed in accordance with Aust. Standards AS2971 1987 Class 2 serially produced unfired pressure vessels. USA UL® Listed.

**Quick Delivery.** Generally delivery of chillers is 4-8 working days from date of order.

Chiller	Capacity	Refrig.	Water	Dimensions(mm)	Weight	Legend
Model	Nominal	Suction	Conns.	W D H		
S-4/6HLC	60 TO 78 kW	35mm ODS	50mm ODS	1270 x 360 x 480	72	1. Liquid distributor
S-5/6HLC	72 TO 96 kW	42mm ODS	50mm ODS	1270 x 360 x 510	78	2. Suction connection
S-6/6HLC	99 TO 123 kW	42mm ODS	65mm ODS	1270 x 360 x 540	95	3. Water in
						4. Water out

**Note:** The nominal capacities shown above are for water chillers. For capacities for low temperature brine applications contact Hanwest office.
