

## HANWEST AQUA SYSTEMS Heat Pump Water Heater Installations

“Energy efficiency is not just important for now but FOREVER”

Quote by Edward Jacob MD Campbell Energy Saving Equipment.

### ‘Novotel Clark Quay’ - Singapore 2013

As part of the overall plan to increase the energy efficiency of the hotel the existing hot water boilers were replaced with 4 **Hanwest Aqua Systems** Model WSVWH-50 water source heat pump water heaters using the return air conditioning condenser water as a heat source. For the upper levels 3 **Hanwest Aqua Systems** Model ASHP-35 air source heat pump water heaters were installed on the roof of the building.

### ‘Shangri-La Resort Boracay’ 2009.

The developers of the prestigious Shangri La, Resort on Boracay Island, Philippines required the resort to be “eco friendly” with a focus on energy efficiency. A total of 9 Campbell “ASVWH” series air source heat pump water heaters were installed. The **Hanwest Aqua Systems** ASVWH heat pumps were equipped with centrifugal fans for cool air recovery to provide cooling to some areas during the water heating process.

CAMPBELL Model ASHWH-50CF-TC/SS heat pump water heaters installed in the Mt Elizabeth Hospital at Novena, Singapore.

‘Standard Chartered Building?’
